Spring 2011

Along time between updates you may say...well it's been a busy year and here's a quick update from us.

Our garden room is finished and looking fantastic. The space we started with was literally four walls covered in pitch & straw. Now it's the old engine room we need to focus on. A new roof is on the plans for this year, but where is the scaffolder????

The creek is flowing and our couple of boys have found redfin thriving along with yabbies & frogs.

We hosted some beautiful weddings in the garden during Summer, fabulous flowers & long tables. Georgie Campbell who has created some amazing floral arrangements for weddings will be here to run a few classes so check out the up and coming events.

We look forward to seeing you again soon!
